

The Military Guide Resources

Hi there,

I'm Mike at themilitaryguide.org. My crew and I are a group of veterans and family members trying to help those who've served. I wanted to take a quick moment to thank you.

Oddly enough, the hardest part of military life was my transition away from it. And I'm not alone. Depression, addiction, joblessness and the worst problems that affect the community can all be combatted through adequate help and resources as a servicemember begins to transition to civilian life.

Please consider doing what you can by sharing these resources.
